CRAFTED FOR *LIVING*,
LASTING FOR *HOME*

ABOUT KARLIVA

Rooted in Solo, Central Java, Karliva is a trusted furniture manufacturer for both international and local markets, focused on solid wood and modern living collections. With decades of Javanese craftsmanship and a passion for innovation, we create pieces that bring warmth, comfort, and connection into homes across the world — furniture that lasts and supports moments of togetherness.

WHY KARLIVA

1. **Skilled artisans** with generations of craftsmanship

2. **Export-quality standards,** built to last

3. **Flexible designs** for global and local needs

OUR VALUES

We believe furniture is more than function, it's about connection, comfort, and creating spaces where life happens.

OUR FACILITIES

In our factory, more than 80 skilled hands work together to produce up to five containers of solid wood furniture each month. Teak, mahogany, and mindi are selected, seasoned, and transformed into pieces worthy of international homes.
